

# 16-824 Visual Learning and Recognition (F23)

Instructor: Jun-Yan Zhu

TAs: Zhipeng Bao, Wen-Hsuan Chu, Yeojin Jung, Rutika Moharir

## Presentation instructions

5 minutes presentation + 1-2 minute Q&A

Dates: Monday 12/04 and Wednesday 12/06

Location: classroom

Please fill out the Google sign-up sheet (see Piazza post) for Monday or Wednesday and add a link to your Google slides BEFORE your presentation. Make sure that your slides link can be viewed by the instructor's or TA's laptop with a guest account.

For the project presentation sessions, we will prepare snacks and soft drinks. We will also give out a small gift to the Audience's Choice Award according to students' live votes.

There are 11 slots available each day. Please do not create additional slots for either day. Please practice your talk, time it, and make sure you can finish it within 5 minutes. A lengthy talk above 5 minutes will affect your final rating.

## Final project report instructions (due: 12/15)

Writeup: You can choose to use the PDF format OR website writeup. They will be made publicly available. For the website, you need to host it on your own web.

PDF FORMAT: CVPR template, 3-6 pages excluding references.

In your report, make sure to motivate your project, describe your approach, and show interesting (qualitative or quantitative) results!

Submit to Gradescope:

- PDF of paper or the PDF screenshot of your website.
- Project code

If you are working on video-related projects, you are encouraged to add video results to your PDF (providing a link) or website, if it helps demonstrate your method.

The deadline is strict (with no extension), as we need to submit the final grades before the semester ends.

Thank you!
